

August, 2022

Dear Parents/Guardians,

In accordance with 19a-333-1 through 13 of the Regulation of Connecticut State Agencies, “Asbestos-Containing Materials in Schools”, we are required to inform you that asbestos-containing materials have been identified in various areas of the building. Much of the material has been removed over the years. Any asbestos material remaining is identified in an Operation and Maintenance (O & M) program. This program is designed to prevent asbestos fiber release through proper cleaning, maintenance, and repair. The O & M program will remain in effect until all asbestos-containing building material is removed from the building. This letter applies to school year 2022-2023.

The building is inspected every six months to determine any changes in the condition of the materials. Additionally, the building is thoroughly re-inspected every three years by Connecticut licensed asbestos inspectors following the same basic criteria as the original inspection.

The Ben Bronz Academy maintains a complete updated copy of the Asbestos Management Plan. It is available during normal business hours for review. The designated administrator for the asbestos program is Jason Devin, Chief Operating Officer. If there are specific questions you have with respect to any of these issues, please contact Mr. Devin at 860-236-5807.

Sincerely,

Christina Lamphere, M.A., CAGS
Education Director
